Kim,

Here is the updated version of STC SH96-120 for D205-541 to add the 412 models.

The signed FMS are also included.

I will put all the originals on your desk.

Please initiate a revision application to the FAA. We cannot send until I update the ACR.

We also need to look at intercepting our EASA application to add the 412 models.

We'll talk about this when I get back in the country.

David

Document.pdf

SH96-120 has finally been updated to add the 214 and 412 models. In the near future, we will update the FAA STC and attempt to intercept our EASA application to get the 412 approved by EASA for FAASA.

Thanks for your patience.

David
